★ OUR STORY ★

Buddy & Barney is an independent family-owned publishing venture nestled in the picturesque city of Bath, England. Our enduring passion for the world of children's products fuels our mission to craft delightful, yet educational treasures for young children across the globe.

We specialize in the design and production of top-tier toys and novelty books. Every item we create is a labor of love, inspired by our own affection for playing, and more importantly, endorsed by the discerning taste of our little chief product testers, Buddy and Barney. If it doesn't earn our children's approval, it simply doesn't make it into production!

SAFETY TESTING

Whilst we have lots of fun writing our books and designing our toys, the safety and quality of our products are non-negotiable priorities. Every step of our product development process involves rigorous adherence to industry-standard testing, as well as thorough play-testing sessions.

We prioritize safety concerns by implementing thorough and meticulous safety policies and procedures for all our creations. As an international publisher serving clients worldwide, we are fully compliant with the current ASTM and CPSIA requirements in North America. Safety reports are available upon request.

ORDERING PROCESS

We are pleased to be able to collaborate with a fulfilment company in the states, so we can now ship all orders direct from our US warehouse.
